## EXTREMUM is bringing together expertise from different fields of science – machine learning, law and healthcare

The purpose of EXTREMUM is to provide a set of novel methods and tools that can achieve good trade-offs between predictive performance and explainability in healthcare applications, explains Panagiotis Papapetrou, PI of EXTREMUM at Digital Futures.

## Digitalization could be more widespread if solutions and systems were better adapted

The gap between those who use the Internet and those completely outside digitalization is noticeable.

In 2021, Digital Futures will make a special effort to understand better how digitalization has affected the elderly and increased Internet use in the study Digital Futures for Later Life.

## Seminariet – MOD ATT SAMVERKA – så tar vi oss en utmaning med samverkan för att utveckla offentlig sektor

Hur kan akademi, näringsliv och offentlig verksamhet i vår tid arbeta tillsammans för att dra nytta av digitaliseringen och stimulera hållbar samhällsutveckling? Hur kan vi gemensamt ta fram skalbara digitala lösningar som förbättrar och underlättar för invånarna? Det här är frågor som många kommuner och regioner tampus med.

Inom ramen för Digital Futures och innovationssamarbetet Digital Demo Stockholm inbjuds du till seminarium där vi delar med oss av våra erfarenheter den 11 juni, 13.00-14.30, via Zoom.

Seminariet MOD ATT SAMVERKA bjuder på lärdömar från Region Stockholm, Stockholms stad, näringsliv och akademi. Hur löser man samhällsutmaningar i kommun eller region? Vilka frågeställningar och insikter är viktiga att ta hänsyn till? Hur får man igång ett samarbete med olika aktörer? Låt dig inspireras och få möjlighet att utbyta erfarenheter!

Note that this seminar is in Swedish.

## Painting the digital future – a vision of 2040!

Through digital transformation, we have the opportunity to impact our future positively. In a perfect world, how will we live, work and play in 2040? Digitalize in Stockholm is an annual conference for global thought leaders and rising stars in academia, industry, government, and civil society – all engaged in transformation through digitalization.

## Upcoming lectures and seminars

27

May 12:00 - 13:00 CEST (UTC +2)

### DIVE-DEEP LUNCH SEMINAR

**Speaker:** Haoran Sun, University of Minnesota, Minneapolis

**Title:** Recent Advances in Distributed Non-Convex Optimization and Learning

[Read more](#)

1

June 15:00 - 16:00 CEST (UTC +2)

### FLY-HIGH FIKA SEMINAR

**Speaker:** Fábio Duarte, MIT

**Title:** Unveiling urban phenomena through digital traces

[Read more](#)

8

June 15:00 - 16:00 CEST (UTC +2)

### FLY-HIGH FIKA SEMINAR

**Speaker:** Jelena Diakonikolas, University of Wisconsin-Madison

**Title:** Structure in Min-Max Optimization (and How to Use It!)

[Read more](#)

10

June 15:00 - 16:00 CEST (UTC +2)

### DIVE-DEEP LUNCH SEMINAR

**Speaker:** Emil Björnson, KTH Royal Institute of Technology

**Title:** Evolving Mobile Broadband Connectivity Towards 6G

[Read more](#)

15

June 15:00 - 16:00 CEST (UTC +2)

### FLY-HIGH FIKA SEMINAR

**Speaker:** Claire Ingram Bogusz, Uppsala University

**Title:** Two conflicting hats: Using a platform trade association to resolve gig work role conflicts

[Read more](#)

16

June 15:00 - 16:00 CEST (UTC +2)

### FLY-HIGH FIKA SEMINAR

**Speaker:** Sridevi Sarma, Johns Hopkins University

**Title:** Using Dynamic Network Models and their Properties to Improve Treatment of Epilepsy

[Read more](#)

## About us

Digital Futures is a cross-disciplinary research center that explores and develops digital technologies. We bring solutions to great societal challenges, in Sweden and globally. We generate knowledge, innovations and future leaders of high industrial relevance and strategic importance. Digital Futures is jointly established by KTH Royal Institute of Technology, Stockholm University and RISE Research Institutes of Sweden.
